

Fellow HOG Members.....Being Safety Officer it has come to my attention that everyone should have some sort of Medical ID Wallet Card in their possession at all times. Heaven forbid we ever get involved in a accident but things happen. I do know that several health insurance companies give out cards that you might fill out yourself but I happen to stumble upon this website that I feel that covers all the necessary information that a Medical Professional will need to help you in case of a accident.

**Log on to:
<http://www.medids.com/free-id.php>.**

Fill out the information and click on the Create ID Wallet Card. Print out your card. Cut out the card bring it to the next Chapter meeting and our Secretary, Elaine Niece will have it laminated. Always carry it with you. They suggest that you put it behind your Drivers License. One of the first things they will look for after an accident.

Let's all stay SAFE and keep the Rubber Side Down.

**Pete Hawkins
Safety Officer**
